We collected the equipment in the car and began our expedition. It took about two days to reach Saudi Arabia.

During our expedition to climb mountains in Saudi Arabia, we faced many challenges. The first risk was the high temperature. It was so hot that we took rest many times. Also, we saw many wild animals but we were careful not to be attacked by any of them. We were very afraid of getting lost among the mountains but fortunately we had the compass which helped us much. We were very tired and exhausted, but it was very interesting. Finally, we came back safely to Kuwait.
