Summary Making:

Paraphrasing:

Changing words:

Q Climbing mountains is dangerous

Q It's important to memorize your bank pin code.

Rearranging words:

Q If you cared, you would apologize.

Q wanting to win is not enough in this competition.

Changing to passive:

Q people use pineapples to make paper.

Q Engines will be fixed immediately if they fail.

What is NOT paraphrasing?

Q In addition, lack of sleep could cause loss of concentration.

Practice:

Many animals have gone extinct because of so many reasons. Men actions are well-known to be the major causes of animal extinction. Men hunt animals for their meat, skin and sometimes to sell their teeth or bones. Another thing man has been doing to cause animal extinction is the destruction of the animals' natural habitat. People have been cutting trees to create lands for farming and building. Moreover, the use of pesticides contributes to killing animals. When animals feed on the plants which pesticides were used on, they either get ill or die. Pollution plays a vital role in animal extinction as well. Although biologists have been unable to isolate a single cause for the recent rapid decline in numbers and extinctions of many species, it spears that much of it is due to pollution.

Q What are the reasons for animal extinction?

Focus On:

Q Kuwait times is an institution every Kuwaiti can feel proud of. It was the first English language newspaper in the gulf. It was founded with the intention of providing reliable, reputable and incisive reporting in English for readers throughout Kuwait. It has also presented a positive image of Kuwait abroad by launching a media outlet in a language spoken throughout the world.

Q Kuwait is in a unique position to protect wildlife and has been instrumental in stressing the importance of protecting our environment in countries throughout the Middle East. The Sheikh Sabah Al-Ahmed nature reserve is just one in a long list of many important moves made within Kuwait as part of a national effort to preserve a unique and important system of wildlife

It was established with the aim of protecting and restoring the natural beauty and wonder of Kuwait's ecosystems. It was also hoped that the site would encourage young Kuwaitis to take an interest in environmental issues and to actively participate in the protection and maintenance of Kuwait natural heritage.
