**Do you know that this is
an invention used to clean
contaminated water?**

Reading Comprehension:

What happens if you drink contaminated water? That's an easy question to answer. You might catch a fatal disease and you might die. This is what happens in many poor countries. In Kuwait, we have clean water to drink and cook with. But it is very expensive. Fortunately, some scientists have invented something so that people in poor countries can always drink clean water. It is called a LifeStraw. It is used to purify water.

It is made of plastic and is cheap to buy. Inside the straw are chemicals to stop the bacteria from getting into your mouth. You can use the straw to drink any water, for example, from rivers and lakes. Simply put the bottom of the LifeStraw into any source (except seawater) and drink. The LifeStraw is very easy to clean. It could save a lot of lives.

Answer the following questions

Q Complete the table:

Intervention	lifestraw
Description	It is an invention that helps people to purify water
Importance	it could save lives because people in poor countries don't have clean water

Q How can science help us?

Science helps in inventing devices that will save lives and they make life easier

Q Do you think you waste electricity? How?

yes, because I always forget to switch the light off
yes, because I keep my iPad on the charger all day

Q How can you change that?

I should switch the lights off when I leave the room
I shouldn't leave my devices on the charger all day

Q What do you think will happen if you don't change?

we could run out of power

Reading Comprehension:

Marie Curie was born on 7 November 1867. Her mother and father were both teachers. Marie proved to be a very bright child and did well at school. Unfortunately, at that time women were not allowed to go university. So, Marie had to study abroad. Marie went to university in 1891. She studied Physics and Maths.

In 1894 she met Pierre Curie, a scientist. They married in 1895. Marie and Pierre worked together to find a cure for cancer. Their work saved many lives. In 1903, Marie and Pierre Curie were awarded The Noble Prize in Physics. The prize brought **them** fame.

Sadly, in 1905 Pierre was killed by a horse-drawn vehicle. However, after his death Marie was offered his post as a professor of Physics at Sorbone University in Paris. In 1911, Marie was given the Noble Prize in Chemistry. Although Marie worked hard all her life to help people who had cancer, she died of cancer on 4 July 1934. I think she should be on a stamp!

Answer the following questions:

Q What is the main idea of the text?

Marie worked hard in science to help people.

Q Why did Marie have to study abroad?

because women in her country were not allowed to go to university.

Q What does the underlined word "them" refer to?

it refers to Marie and Pierre

Q How old was she when she died?
she was 67 years old when she died.

Q Why should she be on a stamp?
because she used science to help people and find cure for cancer.

New Zealand is in the Southwestern Pacific Ocean. It is a small country, similar in size to Great Britain or Japan. It is 258,000 square kilometres. The population of New Zealand is approximately 4.6 million.

New Zealand is an island country. It has two main islands - North Island and South Island. North Island is smaller than South Island but the population of North Island is bigger. Auckland is the biggest city but Wellington is the Capital.

The landscape of New Zealand is very varied. You can find everything from high mountains with snow to volcanoes and rain forests. Also, there are long sandy beaches, rivers, lakes and farms.

Tourists visiting New Zealand can see many mountains. On South Island, there are the Southern Alps. Mount Cook is there. It is the highest **peak** in New Zealand. You can ski on it. North Island has fewer mountains, but is known for its active volcanoes.

New Zealand is a land of lakes. It has about 3,820 lakes. The largest is Lake Taupo. It is in North Island, Hauroko, in South Island, is the deepest lake in New Zealand and the 16th deepest lake in the world.

Read this e-card between Eman and Reem.

Dear Reem,

I am having a fantastic holiday in Bahrain. I've been here for four days. I've already been to the gold market and the Museum of Pearl Diving, but I haven't visited the Arad fort yet. I've already been scuba diving. I enjoyed taking photographs underwater. It was an amazing experience.

I haven't been on this bridge yet. It is called the King Fahd Causeway. It opened in 1986. It stretches for about 25 kilometres and links Bahrain with Saudi Arabia. About three million cars go over it every year. Tomorrow, I am going to have lunch at the restaurant on the Causeway.

Love from,

Eman

Answer the following questions:

Q Where is the bridge?

it is between Bahrain and Saudi Arabia.

Q How long is the bridge?

it is 25 kilometres long.

Q How many cars go over the bridge every year?

3 million cars go over the bridge every year.

Q Which of the following is NOT true about King Fahad Causeway?

- It is about 25 kilometres long
- It opened in 1986.
- It joins Bahrain and Qatar.
- There is a restaurant on it.

Q Cross out the unnecessary sentences in Reem's e-card. Keep the important sentences only.

Dear Eman,

Thank you very much for your e-card. I think you had a very good holiday. I am on holiday in London. We are visiting my Aunt Fauzia. She lives in London because Uncle works in a bank here. They are always very kind. We flew from Kuwait to London last Saturday. The plane was comfortable. We had chicken to eat. The weather is pleasant. It hasn't rained yet. I think it will be sunny tomorrow but not as hot as Kuwait. We've visited lots of attractive places and tomorrow we are going to London Zoo. We have already eaten in some English restaurants but I like Kuwaiti food more. My aunt is very good at cooking. I'll see you soon. We are coming home next week.

Love from,
Reem

Read the following e-card and answer the questions:

Hi Faisal,

We're on holiday in Bahrain. The weather is very hot and sunny so we go out every day. Our hotel is wonderful because it is very modern. It is only a five minutes walk to the beach so I can swim every morning. We have had some delicious food and I'm always hungry! Bahrain is modern and there is a lot of traffic and people, but there are some very interesting places to visit.

See you soon.

Ahmed
