Read the following text and match each title with the right paragraph:

- A. Types of Exercise
- B. How to Exercise
- C. Tips on How to Keep Fit

Q \_\_\_\_\_ When you are fit, studying becomes easier, and you can do daily tasks better. It doesn't have to be extremely difficult to keep fit. Walking is easy and doesn't need any special equipment. Try to take the stairs rather than the lift. Even playing a friendly game of football helps you keep fit.

Q \_\_\_\_\_ There are three main types of exercise - aerobic, resistance and stretching. Aerobic exercise is when you make your heart and lungs work. Examples of this are swimming and roller skating. Resistance training, such as push-ups and weightlifting, is for building muscles. Stretching activities, such as yoga, make you more flexible. In general, it is important to have an exercise regimen which contains all the above types of exercise.

Q \_\_\_\_\_ It is important to have routine for training. A good exercise session has a warm-up of about 5-10 minutes. This could be walking or jogging. Then, move to exercises such as push-ups to help you strengthen your muscles. Include aerobic exercise like cycling and basketball. Finally, stretching exercises will help you cool down.

Q Complete the missing information:

			
<b>Sport:</b>	Basketball		
<b>Type:</b>		Resistance	
<b>Good for:</b>			It makes you more flexible.

## Read the following text and write the main idea of each paragraph:

Vegetarianism has become popular worldwide. Some people stop eating meat because they believe it to be the key to a healthy life. They follow a strict diet that includes fruits, vegetables, cereal grains, nuts, seeds and sometimes eggs and dairy products.

Q Main Idea:

---

A vegetarian diet has its advantages. The main advantage is that there is less risk of obesity and heart disease. The diet includes high amounts of vitamin C, folic acid and fiber. This diet helps to avoid diseases because of the vegetables which are an excellent source of antioxidants. A vegetarian diet helps in digestion because vegetables contain more fiber. Lastly, more energy is gained from vegetables because they are the primary source of the food chain.

Q Main Idea:

---

Being a vegetarian, also, has its downside. It can negatively affect your health. This diet is low in calcium, proteins, iron, vitamin B12 and zinc. Vegetarians who do not consume milk or dairy products can lack vitamin D as well. These nutrients are all found in the vegetarian diet but not in adequate amounts. Athletes for instance cannot be vegetarians because they need huge amounts of protein that is found in meat.

Q Main Idea:

---

In conclusion, I think that eating a balanced diet is important for maintaining good health and keeping the body in top condition. I think a balanced diet does not cut out any food group. It consists of a wide variety of foods, served in the correct amounts to support our body and keep us energised, motivated and healthy.

Q Main Idea:

---

**Answer the following questions:**

Q What is vegetarianism?

---

---

Q Which paragraph is against vegetarianism? How can you tell?

---

Q What is the writer's opinion of vegetarianism?

---

---

A 16-year-old Kuwaiti girl, Juri Mohammed Al-Azmi, has always loved reading books and poetry. She lost her sight but did not lose her determination or hope. She was able to overcome being blind and achieve first place in Kuwait at the

"Arab Reading Challenge" contest. She beat 16,000 Arab students by reading 50 books. She also participated in the "Arab Reading Challenge Champion" contest in the United Arab Emirates. There were 18 other Arab students who had reached the final stage of the competition.

One of the difficulties facing Juri is the lack of books in Braille. Braille is a method of writing that helps the blind to read with their fingers. ## Read the following story and answer the questions below:

My dad runs a garage just outside the city. It's the biggest garage in town. It's a family business and my dad is really proud of what he has achieved. All the rich people bring their expensive cars to him to be serviced and repaired. Last year, a mechanic named Don came to work for my dad, but he didn't stay long.

Dad's garage is huge. It has three separate workshops and he employs forty mechanics and over a hundred other staff. It's hard to keep track of all the workers, so dad employs a foreman named Antonio. He's a short, heavy man, and he moves slowly, but he has a lot of power. His job is to check what the mechanics are doing and to tell them what they're supposed to do. He also pays the men's wages.

At first, Don worked hard. He was young, tall, slim and quick with his hands. He fixed the cars faster and better than anyone. He was a rising star among the mechanics in the workshops. After a while, Don became too proud of himself and started cheating. That was the beginning of his real trouble. He found a quiet place outside the garage, where no one could see or hear him. He would sit under a tree and spend the days singing to himself instead of working.

'You like to think I'm working, but I'm not,' he sang.

After a while, Antonio found out what Don was doing. He set a trap. One morning, before Don arrived at work, he climbed up the tree and waited for Don to arrive.

An hour later, Don, as usual, came to sit under the tree. 'You like to think I'm working, but I'm not,' he started singing.

All of a sudden, Antonio dropped out of the tree and looked him in the eye. He sang to the same tune Don had used: "You like to think I'm going to pay you, but I'm not!"

And that's how Don lost his job at my dad's garage. Since then he has been jobless.

Q What was Don like? How did he work at first?

---

Q Why did Don cheat at work?

---

Q How did Antonio solve the problem?

Q What message do you think the writer of the story is trying to share?

## Read the text and answer the questions:

Since 2000, highly-trained astronaut teams have been travelling 350 kilometres into space to live and work. Most of these astronauts spend about three months in space. Living in space is a bit like camping, you have to take everything you need, you use special equipment, and you have to dispose of your own rubbish. We asked Bill Ross on the International Space Station to tell us about living in space.

Almost all our food is in tins or dried. We even have to add water to drink. We drink through a straw, otherwise the liquids float around the cabin. There is no fridge, so we can't have cold drinks. But there is a wide choice of food soup, meat, vegetables, fruit, nuts and bread. We get three meals a day and a snack. We have to warm up our meals before we open the packages. Food moves around in zero gravity, so we can't eat off plates. We eat from the packages and we use straps to keep our food on the table. We don't use knives or forks - and we don't use chairs. We simply float around the table!

When we go into space in the shuttle or when we re-enter the Earth's atmosphere, we wear special 'suits called LES (Launch Entry Suits). The suits have parachutes, oxygen, an inflatable boat, water and a flare gun kit. Inside the station, we wear casual clothes with lots of pockets. Sometimes when we walk outside in space, we wear specialised, white spacesuits with finger heaters in our gloves!

Q Give three reasons why being in space is like camping.

---

---

---

Q Why don't astronauts use knives or forks in space?

---

Q How do you think the tools of the LES are useful to astronauts? Explain one use for each tool.

---

---

---

Q Imagine you are a journalist. Write questions to ask an astronaut about his experience of life in space.

You can ask about:

The most difficult thing / the best moment/what they miss / ...etc.

**Read the following text then answer the questions below:**

Clara Barton was a very special woman. She was born in 1821 in the United States. She started her career as a teacher at an early age. Clara opened a free school and became a popular and respected teacher. When her school grew, she hired another teacher to help her teach. There were over 600 students in the school. She raised a lot of money that was used to open another school.

Unfortunately, Clara was not allowed to be the principal of the new school. Her community would not let women hold this position. A male principal was hired instead and was paid twice as much as Clara. She was demoted to "female assistant".

Due to the harsh environment, Clara suffered from many health problems and decided to quit her job.

When the Civil war began, Clara worked as a nurse. She fed soldiers and cleaned their wounds on the battlefield. She proved that women can succeed in any job. Clara later founded an international organisation. Injured soldiers were cared for by Clara's organisation. Clara always said, "I may be compelled to face danger, but I never fear it."

Before the discovery of oil in Kuwait, pearl diving was the main source of income for many Kuwaiti people. Pearling was important for Kuwait's economy. Pearl divers used to face many hardships in the sea. Pearling was a daily activity for sailors and divers. They often worked for 12 or 16 hours a day.

Pearl diving was not only an industry, but a social system that held communities together. Every generation passed on the tradition of pearl diving by teaching their children and telling them stories about pearling. The methods used in pearling did not change for many years.

Pearls hunters used many kinds of ships. The 'Boom' was one of the most famous ones. Divers wore wraparound skirts or black suits, a nose clip, a neck basket and a toe anchor. They were tied securely to the ship with a rope around their waists. They held the rope throughout the dive. When a diver was ready, he tugged on the rope and was pulled up to the surface.

The tradition of pearl diving died during the 1930's because of the introduction of cultured pearls which were cheaply farmed in Japan, but pearl diving is still an important part of the Kuwaiti heritage. Nowadays festivals are held and sea trips are organised to keep this tradition alive. These trips are supported by His Highness the Amir of Kuwait.

### Breaking News:

Our news reporter, Dana Ali, went to the National Library of Kuwait to meet one of the experts in Kuwait history, Mr. John Ramzi. Dana contacted him to talk about Kuwait records.

**Dana:** Hello Mr. Ramzi. We are thrilled you found time in your busy schedule to meet with us to talk about your latest book "Kuwait Records 2018". You worked on this book for two years, didn't you?

**John:** Well, actually it took more than two years because, as you know, records are broken every year.

**Dana:** Can you share with us some of your favourite records that haven't been broken yet?

**John:** Look around, you are conducting this interview in one of Kuwait's oldest records, 'the National Library of Kuwait'. It is the oldest public library in Kuwait. You knew about that, didn't you?

**Dana:** Yes, I did. I read your book and I loved it. We don't want to spoil it for other people who would love to read it, but can you tell us about other favourites of yours?

**John:** Sure, one of my favourites is the biggest island in Kuwait and the second biggest island in the Arabian Gulf, Bubiyan Island. What's unique about this island is that its sand is saltier than the water in the gulf. Currently, there is no one living on the island except for birds. Did you visit it?

**Dana:** No, I didn't, but our cameraman did. He said it's interesting. What about Al- Hamra Tower? Is it a Kuwaiti record as well?

**John:** Yes, it is, and a great skyscraper if I may add. It is the tallest building in Kuwait and the 23rd tallest in the world. It's more than 400 meters high and it took six years to build. It was included in the list of the best inventions of 2011 by TIME magazine which is published in New York. Don't forget the exciting luxury shops you'll find there, the variety of dining options and the eight-screen grand cinema.

**Dana:** Wow! That's quite impressive. Thank you, Mr. Ramzy for this interview, it makes me feel proud to be a Kuwaiti. We hope to speak again soon about your next book.

**John:** Thank you Dana the pleasure was mine.
