❑ Where are these building?

❑ Do you know what they are used for?

❑ Why are they important?

Read the text and answer the questions below:

What do you know about water? Well, a person can live without food for more than a month, but a person can live without water for a week only. Water helps us to keep healthy and is very important to us.

Where do we get our water from in Kuwait?

Two thirds of the Earth is covered in water but we can only drink a little of it. Most of the water is sea water - but people can't drink it. Rich countries like Kuwait take the salt out of sea water to make drinking water. It is difficult to do this. They have to build desalination plants, which are very expensive. They keep the water in towers around the country. Kuwait Towers are famous over the world and they hold water, too.

Many people in the world do not have safe drinking water. Every year, many people die because they drink dirty water. We need water in our homes, in factories and for farming. It is important to use water carefully and we should never waste it.

Q What do people usually do at the beach?

Q Do you think there are dangers there?

Read the story and answer the questions:

Last Saturday, fifteen-year old Waleed went to the beach. While he was walking along the beach, he suddenly heard a scream. He saw a young boy, Marwan, who was in the sea shouting for help and waving his arms. Waleed ran into the water and started swimming towards him. While he was swimming, he saw Marwan go under the water. Waleed swam faster and faster. Finally, he reached him. Waleed put his hand under Marwan's chin and swam back to the shore. Some men helped Waleed and Marwan out of the water. Waleed said, "when I saw him, I knew he was in trouble. I am good at swimming so I went to help him." An ambulance took Marwan to hospital. He went home the next day.
