## Reading Comprehension

Nowadays you can find fast food restaurants in almost every big city. Most people prefer fast food restaurants. Speed and price make them the favorite restaurants. Some people don't want to spend a lot of time preparing food. So, they can order what they want and eat it in about fifteen minutes. That's why they are called 'fast food restaurants'. The prices are also cheap because of the large number of meals sold every day.

People like to be comfortable and enjoy their food. The famous fast food restaurants like Hardee's make sure that a beef burger in Kuwait tastes the same as the one in New York and not different from the one bought in London. An example of fast food is beef burgers. They have too much salt, fat and spices. This mixture of fat, sugar and salt set off the pleasure chemicals in the brain. That is why people like having fast food. But, some people say that they are not good for health. They don't have the important food elements which our bodies need.

Food experts advise us not to eat tinned food because it is not fresh. Sometimes, fast food is not well protected from dirt, dust, and insects, especially flies. Such food doesn't also have enough proteins and vitamins. So, eating fast food every day leads to horrible fatness and causes many dangerous diseases like heart attacks and high blood pressure

## Reading Comprehension

**Read the following, then answer the questions:**

A grizzly bear hunts for fish in the river. A black rhinoceros runs across the plains of Africa. These animals share the Earth with us. They fascinate us with their beauty and we love learning about their habits. But just loving them isn't enough. These animals are endangered. Many of them are dying, and without special care, they may someday disappear from Earth.

Africa was once filled with plenty of wild animals, but not anymore. One of these animals, the black rhinoceros, is powerful and can be dangerous. However, its strength can't always help it to escape hunters. Many hunters kill rhinos for their valuable horns. This has caused the black rhino to be placed on the endangered species list. The elephant is also endangered and is killed for its ivory tusks.

Unfortunately, it's people who cause many of the problems that animals face. We change and pollute their habitats. We hunt them for skins, tusks, furs, and horns. We destroy animals that get in the way of farming or building. We remove them from their natural habitats and take them home as pets.

What can you do to help endangered animals? Make an effort to support zoos and wildlife groups. You can also be a smart shopper and never buy a pet that has been raised in the wilderness. If we allow even one species on Earth to die out, it affects other living things and changes our world.

Choose the correct answer from a, b, c and d:

١. Which of the following would be the best title of the passage?

- a. Land Pollution
- b. Endangered Species
- c. Fascinating Animals
- d. Natural Habitats of Animals

٢. The underlined word 'escape' in the ٢nd paragraph means:

- a. run away
- b. fight with
- c. take over
- d. come across

٣. The underlined word 'them' in the ٣rd paragraph refers to:

- a. people
- b. animals
- c. problems
- d. habitats

٤. Hunters kill elephants for their:

- a. fur
- b. skin
- c. horns
- d. tusks

٥. According to the passage, which of the following statements is NOT TRUE?

- a. Earth is for everybody, animals and humans alike
- b. Taking animals as pets makes them endangered.
- c. Many of the problems that animals face are caused by people.
- d. **The loss of one type of animals doesn't affect other animals.**

٦. What is the author's purpose in writing this text?

- a. To persuade people to hunt animals.
- b. To list different types of fascinating animals.
- c. **To explain why some animals are disappearing from Earth.**
- d. To give information about different ways of farming and building.

**Answer the following questions:**

٧. Why is Africa losing its wild animals?

**Because of hunters who kill animals to take its horns,skins,tusks and furs**

٨. According to the passage, what can we do to help endangered species?

**We can make an effort to support zoos and wildlife,also not to buy animals that have been raised in wilderness**

## Reading Comprehension

Antarctica is the coldest place on Earth. It is almost completely covered with snow and ice. In some places, the ice is almost ٥ kilometers thick. There are no trees or bushes. Very small plants are the only things that grow there. This beautiful white land is nearly as big as Europe and the USA put together. In winter, it seems to double in size because ice forms in the sea around it. When the sea is frozen, it is very difficult for ships to reach Antarctica. So the scientists who work there know they cannot leave until summer comes. In summer, the days are very long and the nights are very short. In winter, it is dark most of the time. At the South pole, there is only one "day" and one "night" in the whole year.

**Answer the following questions:**

١) What kind of plants grow in Antarctica?

**Very small plants grow in Antarctica.**

٢) What does the underlined pronoun "they" refer to?

**The underlined pronoun "they" refers to the scientists who work in Antarctica.**

٣) Why can't the scientists leave Antarctica in winter?

**Because it's very difficult for ships to reach Antarctica as the sea is frozen, so they have to wait until summer comes.**

**Choose the correct answer:**

4) Antarctica is the.....on earth.

- a) coldest      b) warmest      c) hottest      d) highest

c) In winter, the size of Antarctica.....

- a) decreases      b) increases
