In the evening, he sat down on a big rock. He saw some black wood on the ground. He was very happy because those pieces of black wood mean there were some people there and they may be still there. If he found them, they would help him, and he might be safe. He got up and walked for a long time here and there, but he could not see anybody. While he was walking, he saw a red bag on the ground. He opened the bag and wished there was some food inside it.

He was surprised when he saw some money inside it. He said:” What can I do with money in this place?” In such case, money is not important. Suddenly, he heard his daughter’s voice. She said: “Get up my father, lunch is ready now.” Indeed, you are what you think of.

## Reading Comprehension

Read the following passage then answer the questions below:

The dictionary is the most important tool for all language learners. It gives them the different meanings and spellings of words. Most dictionaries help to pronounce words correctly by providing pronunciation and phonetic symbols. Moreover, they show the learners how to use the words correctly by giving them examples in meaningful sentences.

When you find a new word in a comprehension passage, it is not a good way to think directly of using the dictionary all the time to know its meaning. It is better for you to try first to understand the main idea of the passage and guess its meaning.

Second, don't forget to look at the opposite of the word and try to **remember** it. If these two ways are not helpful, get the dictionary then and look it up. You will find different meanings for one word. You infer the suitable meaning through the text.

Some books have a mini-dictionary at **their** backs. The electronic dictionaries are the latest. They have more advantages than the printed ones because they are easy to download and carry . You can take them with you everywhere and listen clearly to the correct way of pronouncing words. Fortunately, smart phones can be supplied with different dictionary applications.
