Read the following passage then answer the questions below: -

Helen packed a small suitcase and hurried out the house to catch the bus to the station. There was no one else waiting at the bus stop, so it looked as if a bus had just left. Helen looked at her watch anxiously. It was already two o'clock. Her train leaves at two-thirsty, and since it would take at least twenty minutes to reach the station, she did not have much time to spare. Just then a taxi came slowly down the road. Helen knew that the fare to the station was at least two pounds, which was more than she could afford, but she quickly made up her mind that it would be well worth the extra expense to catch her train. So, she stopped the taxi and got in. She told the driver that she had to catch a train which leaves at two-thirty.

All went well until, just as they were coming out of the side street into the main road that led to the station, the taxi ran into a car. There was a loud crash and Helen was thrown forward ***** so **violently** that she hit her head on the front seat. Both drivers got out and began shouting at each other. Helen got out as well, to ask them to stop quarreling, but neither of them took any notice of her at all. She was wondering what to do when a bus came into sight, going in the direction of the station. The bus stop was not far off, so Helen got her suitcase out of the taxi and ran towards the bus which had stopped to let some passengers to get off. The bus conductor saw her running, so he didn't ring the bus to start until she had got on. Helen reached the station just in time and managed to catch her train after all.

Reading Comprehension (16 ms)

Read the following passage, then answer the questions below: -

The year is 2020, and it's 7.45 on a rainy Monday morning, and you are in your car and on your way to work. You stop at a traffic light, when the light turns green, you continue on your way. Ten minutes later, you arrive at work and you stop reading the morning paper. Then, you get out of your car and you say to it, "Thank you!" Your car replies, "You're welcome!" This possible future may sound unreal, but in fact many car companies are already testing robotic cars, or "driverless cars", on the roads today, although the cars don't speak very .much yet

In 1980s, Germany and the United States tested the first driverless cars, and by 2020 companies such as Volvo, GM, Nissan and BMW plan to sell driverless cars. Driverless cars are not really driverless, the drivers are computers that use radar, computer maps and other .modern technology

Actually, these driverless cars offer many facilities. Perhaps the most important of these is fewer deaths caused by road accidents. In addition, people will spend less time stuck in traffic jams and there will be no need for people to have a driving license. It's not free. \$ 5000 to \$ 10.000 is added to the price of a new car. Nevertheless, at some time in your life, you will probably be sitting in a **robotic**, driverless car on your way to work. Who knows? Life in the future may have amazing improvements in all fields of life

A) Choose the best answer from a, b, c & d: (6x2=12 M)

1. The main idea of the third paragraph is:

- .a) The advantages of the future cars. c) The disadvantages of the future cars.
- b) Future cars will be expensive
- d) Future cars will be expensive

2. The underlined word "<u>robotic</u>' the 3rd paragraph means:

a) socialized

b) fantastic d) computerized

3. The pronoun "it" in the 1st paragraph refers to:

a) car c) light

b) work d) morning paper
