## Reading Comprehension

### C) Reading Comprehension Read the following passage then answer the questions below:

Sushi originates in a Southeast Asian dish, known today as "salted fish". It is stored in rice for possibly months at a time. It is a very well-known dish all over the world. Fermentation of the rice prevented the fish from spoiling; the rice would be discarded before consumption of the fish. This early type of sushi became an important source of protein for its Japanese consumers. The term *sushi* comes from an old grammatical form no longer used in other contexts, and literally means "sour-tasting"; the overall dish has a sour taste.

Vinegar began to be added to the preparation of sushi for the sake of enhancing both taste and preservation. In addition to increasing the sourness of the rice, the vinegar significantly increased the dish's long preservation, causing the fermentation process to be shortened and eventually abandoned. The early types of sushi were developed in Osaka, the seafood and rice were pressed into a shape with wooden (typically bamboo) shape.

The common ingredient in all types of sushi is vinegar *sushi rice*. Fillings, toppings, and preparation vary. Sauce can be added and it's called wasabi. It's added as a topping. This dish is now one of the most famous meals and it is served all over the world.

### **Read the following passage then answer the questions below:**

Rosie loved watching the night sky. **It** shined with so many stars. Sometimes, she would climb onto her father's shoulders. She would feel like a princess, sitting closer to those stars. One afternoon, her father asked her if she wanted to go to the beach. She was happy to go there to see her shiny stars.

So they went to the beach. But it was cloudy that night and there were no stars in sight."Let's see what happens tomorrow" the father said and they went back home. The next evening, they went to the beach again and Rosie **gathered** seashells. Suddenly, she found something very strange. It looked like a big, orange star. "Had it fallen from the sky? And why wasn't it shining?" asked Rosie. "It's not a star," the father smiled. "It's a starfish. It lives in the ocean." Rosie didn't wait the stars to come out but she took the starfish home. Now, she loves both of them.

## II- Reading Comprehension

### Read the following passage then answer the questions below:

Hundreds of years ago, it was possible to use natural material for making our clothes. Both plants and animals supply us with these materials such as wool, cotton, silk, leather and fur. Wool was used for making clothes because **it** was the most common material for making clothes in Europe.

Cotton has been used for three thousand years to make clothes especially in warm countries. The cloth made from cotton plant is very soft, cool and comfortable. In the past, cotton clothes were so expensive that only rich people could buy them.

In the twentieth century, scientists could make artificial materials for making clothes. Nylon and polyester are well known examples. These are much better than natural ones in many ways. For example, they are cheaper and easier to wash. In addition, they last longer and can be mixed with cotton and wool to produce a cloth that looks natural and easy to take care of.

Nowadays, clothes are made in **modern** factories. These factories make many styles for all people. Some factories make special clothes, like sports clothes or ones for firemen. Now, all types of clothes are available at the markets.

## II- Reading Comprehension (14 Marks)

### Read the following passage then answer the questions below:

Today you can find fast food restaurants in almost every big city. In some places you can stand in a line and get a beef burger in a paper bag, in others you can pick up a tray of fish, chicken, pizza or even Mexican or Chinese food, and in some fast food places you can even drive your car up to a window and place your order. A few minutes later, a worker passes you the food through the window and you can drive away and eat it in your car.

In many big cities all over the world, fast food restaurants are open every day. But why do people prefer fast food restaurants to more comfortable restaurants where you can sit quietly at a table and watch the world go by?!

Two things make fast food restaurants popular. Speed and price. People's time is valuable. They do not want to waste a lot of time eating or preparing food. And prices are inexpensive. Because of large numbers of meals sold everyday costs are kept low. Many people think that fast foods are not healthy because they contain too much salt, carbohydrates and fats. But one thing is sure, people everywhere prefer eating fast foods because they find it tasty and also economical way to eat.
