## READING COMPREHENSION

\* Read the following passage then answer the questions below:-

Cleanliness is important in protecting us from infections. Many infections of the stomach pass from one person to another because of bad sanitation and your own cleanliness.

You should always wash your hands before a meal. You should bathe more often in hot weather or when you have been running or in the gym. You ought to be very careful about the food you eat and the water you drink. Make sure that flies and other insects don't land on your food. Insects eat dirt and there are germs in dirt. When insects land on your food, they may pass their germs on to you.

You mustn't leave pieces of food or dirty dishes lying around because they will attract flies. You can protect food from flies and germs by covering it. You should always boil water before you drink it.

Finally, you must never eat food that smells bad because it may be poisonous.

## READING COMPREHENSION

\* Read the following passage then answer the questions below:-

Penguins are birds with black and white feathers . They have wings, but they cannot fly. Instead, they spend most of their time gliding and soaring underwater. When they are on land, they waddle back and forth. A group of penguins that lives together called a colony. Penguins can spend most of their lives in the water. They do all of their hunting in the water. Their prey can be found within sixty feet of the surface. Penguins live near salt water, so that is what they drink. They have a special gland in their bodies that pushes the salt out of their beaks. Penguins find their food in the water too, fish , shrimp, and krill.

Penguins need to watch out for several predators. Some animals that eat penguins are leopard seals, sea lions , and orcas ( killer whales). ## Comprehension

### Read the following passage, and then answer the questions below:

Why do people all over the world like fast food restaurants to more comfortable restaurants where they can sit on a table and enjoy a delicious meal?

Two things make fast food restaurants very famous: Speed and price. People don't like to waste a lot of time eating and preparing food. So they go to a fast food restaurant because the service is fast. They can order what they want to eat and then return to their work in less than 15 minutes.

In these restaurants, the price is always cheap since they sell a lot of meals daily. Another reason is that food will taste the same wherever you are. A big fast food company such as McDonalds makes sure that a burger sandwich sold in the USA will have the same marvelous taste as the one sold in Kuwait.

Doctors say that these meals are not healthy because they have too much salt and fat and some people call these types of food Junk Food, but a lot of people still like eating them because they find it easier, faster and cheaper food.
