Read the following passage then answer the questions below:

In England, many parents think that they must teach their children how to swim to make them more respected and stronger among their friends. They usually take them to public swimming pools or sports clubs on holidays.

One often sees parents anxious trying to force their **frightened** children to swim. I believe that pushing the little child to water can be a big mistake. Parents commit another mistake which is to give children a rubber ring or wings to help them. This makes the child think that it is dangerous to get his / her head under water.

When my children were young, we usually spent the weekends in mountains where there was a circular water tank. It was about two meters deep. I let **them** swim there. I never gave them rubber rings or water wings while they were in water. My eldest son began to jump into the tank. Soon, his brother and sister got used to water and did the same thing.

They move their wings so fast that they can hover in the middle of the air, like a helicopter. Sometimes they hover upside down. They are the only birds that can fly backwards.

Hummingbirds are small. The bee hummingbird, which is a type of hummingbirds, is the smallest bird in the world. It is just a little bit bigger than a bee. Bee hummingbirds build tiny nests.

Hummingbirds move fast. It takes lots of energy to move as fast as they do. This means they need to eat a lot of food. They have to store enough food energy to survive through the night. Their favourite food is nectar, a sweet liquid found in some flowers. Hummingbirds don't use their long beaks for drinking nectar, they use their tongues. Their long tongues work like little pumps. They visit hundreds of flowers daily.

Hummingbirds help flowers too. They get pollen on their heads when they feed. Flowers use pollen to make seeds. Hummingbirds help pollen get from one flower to the next. This helps flowers make more seeds. More seeds means more flowers. More flowers means more food for hummingbirds. Isn't it nice how that works out?
