Reading Comprehension

Read the following passage then answer the questions below:

Although not the longest river in America, the Rio Grande is one of the most important. But, unlike other rivers, it is not used for shipping. In fact, what makes the Rio Grande so important is its location. Since 1846, it has been the official border of Texas and Mexico. It is either the fourth or fifth longest river system in North America. The river starts in Colorado and extends downward to the Gulf of Mexico. Its name is Spanish that means the "Big River" but the Rio Grande is actually known as Rio Bravo in Mexico. "Bravo" translates as "furious". The name makes sense. Because of its twists and turns, it certainly seems to be angrier than most rivers!

The Rio Grande today is mostly used as a source of drinking water for Texans and Mexico. More important, it is a symbol of cooperation between the two nations.

Although the Rio Grande separates their borders, it is therefore a symbol of friendship and peace between two peoples.
