Reading comprehension / 1**Read the following text carefully, then answer the questions below:**

I used to work as a teacher in the north of England. It was not a bad job and I really liked my students, but I began to feel tired, so I needed a break. I had always loved travelling, so one weekend I typed "international volunteering" into an internet search engine. At the top of the results page was the possibility to go and stay on an island in the Indian Ocean and help protect the beaches and the sea animals. I began joking to friends about sending in an application. I had some diving experience, and the more I talked about it, the more I wanted to do it, so I contacted the organisers. One week later, **they** offered to send me to the island and I accepted.

The volunteer job was only for two months during the summer holiday. I thought after I had finished, I would come home. As soon as I got to the island, I was sure I had done the right thing. My first dive was **incredible**. I felt so lucky to be able to experience that every day. In fact, I loved it so much that I never came home. I have now been on the island for ten years and I have a permanent job. I'm working as a marine educator, teaching volunteers about the sea life and taking them snorkelling and diving.

Of course, not everything about my new life is perfect. I work far harder than I used to. However, I cannot imagine going back to my old life.

I. Reading comprehension/2

Read the following text, then answer the questions below:

Nowadays it is not difficult to find fast food restaurants in almost every big city. Most people prefer fast food restaurants. Speed and price make them the favourite restaurants. Some people don't want to spend a lot of time preparing food. So, they can order what they want and eat it in about fifteen minutes. That's why they are called 'fast food restaurants'. The prices are also cheap because of the large number of meals sold every day.

People like to be comfortable and enjoy their food. The famous fast food restaurants like Hardees make sure that a beef burger in Kuwait tastes the same as the one in New York and not different from the one bought in London. Beef burgers have too much salt, fat and spices. The mixture of fat, sugar and salt sets off the pleasure chemicals in the brain. That is why people like having fast food. But, some people say that **they** are not good for health. They don't have the important food elements which our bodies need.

Food experts advise us not to eat food conserved in cans. **Tinned** food is not healthy because it is not fresh. Sometimes, fast food is not well protected from dirt, dust and insects, especially flies. Such food doesn't also have enough proteins and vitamins. So, eating fast food every day leads to horrible fatness and causes many dangerous diseases like heart attacks and high blood pressure. It's better to avoid being addicted to fast food.
