صفوة معلم الكوئيت

Model Answer

Kuwait in the Past

Life in old Kuwait was simple. People lived in small houses. Men worked as fishermen and traders. Women took care of children. Children helped their parents. Life was hard but happy.

How to protect the environment

Saving the environment is very important. We can plant more trees. We should not throw rubbish on the ground. We can recycle paper, and plastic. We should use less water and electricity. That keeps the Earth beautiful.
