- Irresponsible** – It's irresponsible to share personal data online.

Plan and write a two-paragraph expository report explaining how AI chatbots are used in our daily lives, their benefits, and their limitations. Give examples from school, work, or home.

Paragraph 1: (The benefits of chatbots)

Topic sentence:

AI chatbots are helpful tools that make our daily lives easier and faster.

Supporting details:

They can answer questions, give information, and help people solve problems at any time of the day. In schools, students can use chatbots to check their writing, learn new vocabulary, or review lessons. At work, employees use them to organize schedules and reply to customers quickly. At home, chatbots can remind us about tasks, translate languages, and even help with online shopping.

Concluding sentence:

Overall, chatbots save time and make learning, work, and home life more convenient.

Paragraph 2: (The limitations of chatbots)

Topic sentence:

Although chatbots are useful, they still have some limitations.

Supporting details:

Sometimes they do not fully understand human emotions or give the right answer. Chatbots cannot think like humans, so they may make mistakes or provide incomplete information. They also depend on the internet, which means they cannot work offline. In schools, students might rely on them too much instead of thinking on their own.

Concluding sentence:

In conclusion, chatbots are great helpers, but people should use them wisely and not depend on them completely.
