Look at the pictures and tell your partner about what people do when they go to the Little Jungle Park

First, people buy their tickets.

Next

(walk – around)

After that,

(take photos)

Finally,

(snacks – home)

Read and complete with the help of guide words

<https://en.seaworld.org/seaanimal/Octopus>

The octopus is a sea animal with eight long arms named tentacles. It lives in oceans. It uses its arms to catch food like small fish. The octopus's mouth is under its head. Octopuses are very smart. They can spray ink when they are in danger. Some octopuses can even change colour to hide from other animals. Octopuses do not have bones, so they can get into small spaces. Octopuses have big eyes to help them see in the dark. They also like to hide in rocks. They are dangerous sea animal.

Read again, then complete the table below

Fact	Your Answer
Number of arms	eight arms
Where it lives	It lives in oceans.
What it eats	small fish
Where its mouth is	under its head

Lesson 4

The turtle is **the slowest**.

Before you read

What do you know about flamingos?

They have long legs

Read and choose from a, b, c or d

Flamingos are tall, pink birds with long legs and curved necks. They migrate to Kuwait in winter because the weather is cool. These birds fly to Kuwait to look for warm water and food. They like eating small shrimps, which makes their feathers pink. Flamingos like to stand on one leg. After winter, they fly back home. Many people enjoy watching these beautiful birds in nature. You can see them near Sulaibikhat Beach.

- The **best title** for this passage could be
 - Flamingos in Kuwait
 - Winter in Kuwait
 - A Pink Shrimp
 - Warm Water
- The underlined word **they** in line 6 refers to
 - necks
 - feathers
 - flamingos
 - months
- The opposite of the word **warm** in line 3 is
 - cold
 - long
 - big
 - tall

Read again, then complete the fact file about Flamingos

Fact	Your Answer
Colour of flamingos	pink
When they come to Kuwait	in winter
Why they come to Kuwait	to look for warm water and food
What they eat	small shrimp
Where you can see them	near Sulaibikhat Beach

Before you write

Why do flamingos have pink feathers?

because they like eating small shrimps

Fill in the graphic organizer, then use it to write a paragraph about flamingos. The following guide words may help you.

winter – warm – shrimp – curved – tall – pink

When do flamingos migrate to Kuwait?

in winter

Why do flamingos fly to Kuwait?

to look for warm water and food.

What do flamingos eat?

small shrimp

What do flamingos look like?

They are tall, pink birds with long legs and curved necks

Title:

Flamingos

Flamingos migrate to Kuwait in winter. They fly to Kuwait to look for warm water and food. They eat small shrimp. They are tall, pink birds with long legs and curved necks
