Unit 3

Comprehension

Read the following passage carefully, then answer the questions that follow:

We live on a blue planet, with oceans and seas covering more than 71 per cent of the Earth's surface. Oceans are **enormous** bodies of water. They have the tallest mountains in the world, the biggest cliffs and the deepest valleys.

The boundaries between the oceans are based on geographic criteria and have little to do with physical water-mass boundaries. The Pacific is the largest and deepest ocean and lies between America and Asia. The other oceans, in order of size, are the Atlantic, the Indian, the Southern, and the Arctic. The Arctic is the shallowest of all the oceans and is largely covered by ice.

An explanation of the origin of the world's oceans must account for both the great ocean basins as well as the source of the water **that** fills them. Perhaps surprisingly, neither the basins nor the volume of water in them has remained constant over the history of the Earth. In addition, the time required to collect the volume of water in the present oceans is unknown.

Oceans and seas are very important. They are responsible for the regulation of many major processes that occur on the surface of the Earth. Much of the rain that falls on land areas is derived from oceanic evaporation. Oceans also act as reservoirs for numerous other substances that provide a protecting effect on the levels of various gases in the atmosphere. They, also, represent a place of recreation, a means of transportation, and a storehouse of food, mineral resources, and energy.

a. Choose the most suitable word from a, b, c and d:

1. **What is the main idea of paragraph 4?**

   a- Where the water came from b- How deep the oceans are

   c- Why oceans are important d- What the oceans are

2. **What does the underlined word (enormous) in paragraph 1 mean?**

   a- cracked b- big c- shallow d- interesting

3. What does the underlined word (<u>that</u>) in paragraph 3 refer to?

a- account b- ocean c- source d- water

4. What are the boundaries of the oceans based on?

a- geographic criteria b- how ice they have

c- their major processes d- the water they have

5. According to the text, one of the following statements is <u>NOT TRUE</u>:

a- Oceans do a lot of things for us.

b- The volume of water does not change.

c- The number of oceans on the earth is five.

d- The oceanic evaporation causes most of the rain.

6. The purpose of the writer in writing the text is to:

a- let us know where we live

b- teach us about the valleys in oceans

c- tell us how important the oceans are

d- inform us where the oceanic water came from

<u>b. Answer the following question:</u>

Unit 4
Comprehension

Date: _____ Period No._____

Read the following passage then answer the questions below:

The history of perfume dates back to the ancient world. The Egyptians were the first to use it. Natural ingredients such as peppermint and roses are common in early perfumes. The Egyptians invented materials such as glass and used glass perfume bottles to store their perfumes. **They** also used gold, hard stones and other materials to make their perfume containers.

The Greeks classified perfumes according to the part of plant they came from and kept records of their ingredients. Historians have also confirmed that Islamic, Chinese and Indian cultures had been using perfume as part of their religious ceremonies and social activities as well.

The 18th century brought a great advance in perfume industry with the invention of eau de Cologne- "water from Cologne". A young Italian invented it in the city of Cologne, Germany. This was a **blend** of various herbs and flowers and it was very refreshing.

In the 19th century there were many changes in Europe. Modern chemistry and advanced technology made it possible to create new ways of extracting perfumes from flowers. The biggest of all technological advances was the ability to create artificial ingredients in the place of natural perfume ingredients that were hard to find or very expensive.

Both men and women continue to enjoy wearing perfume and cologne. Perfume makes people feel good. Today, you may be in countries thousands of kilometers apart, and yet you can still be able to buy the same brands of perfume. Nowadays perfume is cleverly advertised, attractively bottled and sold at a price that many can afford.

مواضيع التعبير للصف التاسع (فصل أول)

عند دراسة مواضيع التعبير للاختبار نأخذ في عين الاعتبار طريقة رسم المخطط، وعدد الجمل المطلوبة لكل مرحلة، والتعليمات الهامة التي يحاسب عليها الطالب في التعبير:

للصف التاسع: 1. لابد من كتابة 12 جمل على شكل فقرتين ، 2. نلتزم بعنوان الموضوع،

4. نبدأ كل جملة بحرف كبير capital letter وننهيها بالنقطة full stop .

فيما يلي مثال وشرح لطريقة كتابة التعبير:

الفكرة الرئيسية للفقرة الأولى تكون بعد كلمة about أو discussing في رأس السؤال، والفكرة الرئيسية للفقرة الثانية تكون بعد كلمة and ، مثلاً في هذه الحالة:

1. People's healthy food choices
2. Why eating healthy is important

ما ننسى نترك فراغ بسيط في بداية كل فقرة

تكتب الطالبة الموضوع على شكل فقرتين، وننهي كل جملة بنقطة ثم نكمل الجملة اللي بعدها على نفس السطر اذا كان في مكان عشان يكون شكلها فقرة. كل ما كانت الجمل بسيطة تقل فيها الأخطاء.
