Unit 1

Comprehension

Read the following passage carefully, then answer the questions that follow:

Today, millions of people want to learn or improve their English, but sometimes it is difficult to find the best way. Is it **better** to study abroad in an English-speaking country such as Britain or America?

The advantages of studying in Britain or America are clear. For example, you will be able to listen to the language all the time. You will be surrounded completely by the language wherever you go. This will give you many chances to practise your English skills by communicating with native English speakers. Another advantage to studying abroad is understanding the culture behind the language and being able to use English confidently in different new situations.

On the other hand, there are also advantages to studying in your home country. You do not have to make big changes to your life. It is also a lot cheaper than going to an English-speaking country. If you have a good teacher, you can learn in a more focused way.

So, if it is not possible for you to travel to an English-speaking country, find ways to make English part of your everyday life. For example, listen to English news and stories. Practise every day, and do not be afraid of making mistakes. Speak only English in class and try to use **it** whenever possible outside the class.

Comprehension

A girl sat in the kitchen with her mother. She started telling her about the difficulties she was facing in life. Her school subjects were tough, and she didn't have enough time to see her family and friends. She complained that she could never be able to manage her days.

Her mother listened to her and started to move around the kitchen. She put a carrot, an egg, and some coffee beans in three small pots of water on the cooker and turned on the fire. Her daughter was confused and didn't understand what her mother was doing. The mother smiled and said, 'Do you see how these different things have **transformed** to other things in the boiling water?'

She put the carrot in a bowl and was able to crush it easily with a fork. 'The carrot was strong, but now it is soft and easy to crush. Will you allow hard times to make you weak?' Then she removed the egg's shell and said, 'The egg was liquid on the inside, but now **it** is solid. Will you allow hard times to make you tough and bitter?'

Comprehension

Read the following passage, then answer the questions:

Have you ever entered a rainforest? It is a special, dark place where trees grow very tall and millions of animals, insects, and plants live and grow there. A rainforest is found in hot and humid parts of the world. It rains a lot there. Trees grow so closely that **their** branches and leaves slow the rain to reach the ground.

Rainforests are about 6% of Earth's surface. The largest rainforest and the most **enormous** is the Amazon in South America. It covers almost five million square kilometers. The second largest rainforest is in Western Africa. There are also rainforests in America, Asia, Australia, and the Pacific Islands

Rainforests provide us with many things. Half of the world's species of animals and plants live in the rainforests. Eighty percent 80% of the food we eat first grew there. Twenty-five percent 25% of the medicine we take when we are sick is made of plants that grow only in rainforests. The Amazon Rainforest is called the "lungs of our planet" because it produces twenty percent 20% of the world's oxygen. It also gives us one fifth

(1/5) of the world's fresh water.

With all the good things we get from rainforests, we are destroying them. People cut them down to make fields for cows or to grow plants. Destroying rainforests will result in more pollution, less rain, and less oxygen for the world.

Unit 4

Comprehension

Date: _____ Period No._____

Today we see writing all around us. There is writing in books, on signs, and on computer screens. Most children learn to read and write at an early age and use these skills to **gather** and share information in books, magazines, letters, and e-mail messages. Businesses depend on written words to communicate and to sell products. Governments rely on written documents as the basis for their laws. We would be lost without writing.

The earliest people had no system of writing. Writing developed over thousands of years in different cultures around the world. Peoples in ancient Egypt, China, and elsewhere all made important participations. Before writing as we know it existed, drawings were used as a form of communication. Rock drawings have been found in many places.

Modern forms of writing began when people learned to use symbols, such as letters and words. At first, they used pictures that stood for words. For example, a picture might show a hunter, the weapons the hunter used, and a pair of deer the hunter killed. The Chinese used tens of thousands of signs. With their system, **they** could write proper names and new words.

To make writing easier, things had to be simplified in some way. The answer was the development of alphabets. They were at least one type of modern writing because, as we know, the modern English alphabet uses 26 letters.

فيما يلي مثال وشرح لطريقة كتابة التعبير:

الفكرة الرئيسية للفقرة الأولى تكون بعد كلمة about أو describing في رأس السؤال، والفكرة الرئيسية للفقرة الثانية تكون بعد كلمة and ، مثلاً في هذه الحالة:

ما ننسى نترك فراغ بسيط في بداية كل فقرة

تكتب الطالبة الموضوع على شكل فقرتين، وننهي كل جملة بنقطة ثم نكمل الجملة اللي بعدها على نفس السطر اذا كان في مكان عشان يكون شكلها فقرة. كل ما كانت الجمل بسيطة تقل فيها الأخطاء.
